

# Sumit Negi

+91-9311422983 | sumitnegi9667@gmail.com | LinkedIn | Github | CodeChef | Codeforces | LeetCode

## SUMMARY

---

Passionate about competitive programming and backend development, ranked among the **top 1 percent on CodeChef (5-star) and Codeforces (Expert)**. With a solid foundation in problem-solving, data structures, and algorithms, Solved approximately **2,500 problems** across various platforms. Experienced in MERN stack development, Enthusiastic about contributing to challenging backend roles and building innovative solutions.

## EDUCATION

---

**Abes Engineering College**  
B.Tech in Information Technology

Ghaziabad, Uttar Pradesh  
Aug 2020 – May 2024

## TECHNICAL SKILLS

---

**Programming Languages:** C++, SQL, JavaScript, Python, Golang

**Frameworks:** Express.js

**Libraries & Tools:** React, Git

## EXPERIENCE

---

**Backend Engineer**  
Campus Corporate Connect

Jul 2024 – Present  
Hyderabad, Telangana

- Developed and maintained **APIs using Node.js and MongoDB, designed database models, and utilized aggregation pipelines.**
- Contributed to Skillshare, a major product impacting over 30,000 students across 135 institutes, by managing backend functionalities, resolving bugs, and implementing new features, including an attendance publication system
- **Created the corporate page** for RazorHire, enabling recruiters to filter and shortlist resumes effectively.

**Associate Project Manager**  
CodeChef

Sep 2023 – Jul 2024  
Bangalore, Karnataka

- Managed CodeChef's prestigious weekly coding contest, **"Starters," with 30,000 to 40,000 participants** each week. Ensured smooth execution by coordinating with setters, text editorialists, and video editorialists.
- Oversaw plagiarism operations using LSH and MOSS algorithms, identifying and penalizing 1,000 to 2,000 participants per contest to maintain contest integrity.
- Developed and delivered courses on various DSA topics, such as searching and sorting, heaps, stacks, and queues, **benefiting over a thousand students with courses rated over 4 stars.**

## PROJECTS

---

**Todo List**  
BackEnd Project

May 2024  
Nodejs, MongoDB, ExpressJs

- Developed features for task creation, editing, and deletion.
- Implemented dynamic updates to reflect changes in real-time.
- Designed and implemented RESTful API endpoints for CRUD operations.

**URL Shortner**  
Backend Project

Jan 2024  
Nodejs, MongoDB, ExpressJs

- Developed a URL shortener application that converts long URLs into shortened links.
- Implemented features for URL creation, redirection, and analytics tracking.
- Integrated URL validation and error handling to ensure reliable service.
